

How Microsoft Views Clearview

"Microsoft is excited to have our ISV partner Clearview bring to market their innovative utilization of SharePoint as a strategic component of their ECM product. Clearview ECM delivers on the Microsoft vision that partners can leverage SharePoint as a platform for core content services to build next-generation ECM customer solutions."

Evan Richman, Senior Product Manager
Microsoft SharePoint/ECM

"One of the most interesting things about the Clearview solution is the extent to which Clearview leverages Microsoft Office SharePoint Server (MOSS) and the Office 2007 system—not just as a platform for delivering core ECM functionality—but also as part of the core user experience. The integration of MOSS and the Office system is pretty much seamless and delivers the power of both the MOSS and Office system document management features in a very comprehensive, Microsoft-oriented user experience."

Ron Sielinski, Senior Product Manager
Microsoft Office Business Platform

"Clearview extends SharePoint's core content services with high-value, ECM features that are elegantly integrated with the Microsoft technology platform. This next-generation ECM solution provides System Integrators, ECM Resellers and Microsoft Partners with new services opportunities and consulting engagements in the ever-growing ECM market while solving operational, compliance, and governance issues for their customers."

Dave Healey, Senior Product Manager
Microsoft SharePoint System Integrators

"It is a pleasure working with the Clearview team. They bend over backwards to support the Microsoft team and our joint customers. I am very impressed with the Clearview solution, how it leverages the latest Microsoft technologies available today in terms of competitive differentiation, and how it delivers added value to the company's customers."

Gabor Fari, Solutions Specialist
Microsoft, Life Sciences Industry

"The Clearview solution combines extremely well with the latest Microsoft technologies to address two key challenges that hindered enterprise-wide ECM implementations and adoption for many years: (1) user-friendliness and (2) seamless integration with common desktop applications and server-based repositories. However, that's only part of the value they bring to the table—their willingness to work closely with the Microsoft field teams and proactively engage with our joint customers to provide the best service and support as they incorporate MOSS and Office into their overall ECM strategies has been phenomenal."

James Lakes, Solutions Strategist
Microsoft, Business Productivity

About Clearview Software

Clearview is the premier innovator of a SharePoint-based ECM solution designed for today's demanding business world.

Our leadership team combines years of industry experience with the latest Microsoft technology architecture and innovation to bring to market a new standard of excellence for Solutions, Services, and Customer Care.
