**Auburn Hills, MI, February 25, 2008** – Clearview Software, the premier innovators of contemporary Microsoft® SharePoint® based Enterprise Content Management (ECM) solutions designed exclusively for Microsoft technology environments, is pleased to announce that Michigan-based Softura, Inc. has joined the Clearview Partner Program. Under the terms of the agreement, Softura will be using Clearview's ECM suite to provide embedded content and document management services for the SAP® Business One application suite.

"We have selected Clearview's unique SharePoint-based ECM suite as the appropriate functional and technology fit for our SAP Business One customers as well as our Microsoft-centric customers," said Mark Murphy, President of Softura. "Combining the strong ECM capabilities of Clearview's ECM suite with Softura's SAP and SharePoint sales, development, and services competencies will enable us to bring to market highly-differentiated content and document management solutions directly integrated with the Business One solution."
