Press Release

For Immediate Release

Clearview Welcomes Advanced Document Solutions, Inc. to Clearview Authorized Partner Network

Preferred Systems Integrator to Offer SharePoint-based Clearview ECM Suite

Auburn Hills, MI, May 13, 2008 – Clearview Software, the premier innovators of contemporary Microsoft® SharePoint® based Enterprise Content Management (ECM) solutions designed exclusively for Microsoft technology environments, is pleased to announce that Advanced Document Solutions, Inc. (ADocs), a preferred integrator of business process improvement, document automation, and electronic document filing/content management systems, has joined the Clearview Authorized Partner Network. Under the terms of the partnership agreement, ADocs will represent and deliver to their customers the Clearview ECM suite as part of a comprehensive SharePoint-based ECM solution.

ADocs is a solution provider with expertise in offering the appropriate application of document automation and imaging technologies to meet specific business requirements. Experts in many common business processes and industries, the ADocs team possesses significant knowledge and training in business process improvement techniques, and works to help customers improve existing systems and reduce cycle time and cost. ADocs has added Clearview to their solution portfolio because of Clearview's unique, SharePoint-based ECM solution.

"ADocs is a true solution provider in every sense of the word. We don't take a one-size-fits-all approach to ECM solutions. That means that the products we work with have to represent the highest possible value to our customers and the people behind them have to value our customers as much as we do," said Mike Brown, Vice President of Sales for ADocs. "The ECM space is littered with legacy products that represent the best technology money could buy—15 years ago. Clearview's ability to federate and encapsulate the various data silos and legacy applications that are out there represents true value to our users. And the value they bring to Microsoft SharePoint users is leading edge. We believe that Clearview will be a dominant player in our market in the coming years."

"We welcome ADocs to our Partner Network and are extremely pleased that they will offer the Clearview ECM suite as part of their solution portfolio," said Mike Ball, Senior Vice President of Marketing & Product Strategy for Clearview Software. "Their exceptional document management and business process expertise and solutions delivery combined with their outstanding customer commitment make us very confident that ADocs will be a high-value member of our Partner Network."

Clearview has introduced a fresh approach to ECM that uniquely leverages the native ECM capabilities of SharePoint as core components of the Clearview suite architecture. By extending SharePoint with transactional document imaging, report management (COLD), and business process management, Clearview delivers enterprise-class ECM functionality that rivals legacy ECM products. Furthermore, the Office 2007 user experience provided throughout the Clearview client interface provides information workers with a familiar Microsoft experience designed to promote ease-of-use and rapid adoption of ECM on every worker desktop.

###

About Advanced Document Solutions, Inc.

Advanced Document Solutions, Inc. (ADocs) is a systems integrator specializing in ECM solutions and allied technologies associated with document and data capture, workflow, and automation of inbound and outbound documents and business processes. Our ECM solutions work with and extend the capabilities of Microsoft SharePoint and Microsoft Office products, among others. In addition, they are true "third-generation" products based on the latest Microsoft .NET and Web technologies. We have close relationships with all of our partners, but even closer relationships with our customers. If your business goals include ensuring compliance with government regulations, eliminating paper and paper-based systems, or dealing with expensive, legacy document systems, please call us. We appreciate the opportunity to earn your business. To learn more about ADocs, visit www.adocsolution.com.

About Clearview Software

Clearview Software is the premier innovator of contemporary Enterprise Content Management (ECM) solutions that help organizations in all lines of business improve the control, security, and management of information assets; enhance operational process efficiency; and strengthen overall regulatory and compliance initiatives. Pioneers of Microsoft® SharePoint® based ECM technology, Clearview extends and completes the core ECM capabilities provided by SharePoint with enterprise-class document imaging and high-value content services to deliver an unprecedented ECM suite built exclusively for the Microsoft technology environment.
