## Press Release

For Immediate Release

### Clearview Welcomes DocPoint Solutions to Clearview Authorized Partner Network

#### ***DocPoint Solutions and Clearview Software Team Up to Help Companies Benefit from Microsoft SharePoint***

**Auburn Hills, MI, June 18, 2008** – Clearview Software, the premier innovators of contemporary Microsoft® SharePoint® based Enterprise Content Management (ECM) solutions designed exclusively for Microsoft technology environments, today announced the addition of DocPoint Solutions, Inc., a new subsidiary of Quality Associates, Inc. focused on providing Microsoft SharePoint to organizations that are looking to expand employee collaboration and increase the exchange of information, to the Clearview Authorized Partner Network. Under the terms of the partnership agreement, DocPoint Solutions will sell, implement, and support the Clearview ECM Suite, a proven software platform used by organizations across the U.S. to maximize the full value and potential of SharePoint.

DocPoint Solutions provides a full range of ECM consultative services, support, and software with a specific focus on providing Microsoft SharePoint to organizations that are looking to expand employee collaboration efforts and increase information exchange across the enterprise. The company primarily provides its services to government agencies, nonprofits, and corporations.

"In looking for a software partner, we specifically selected Clearview because of its focus on and expertise with the Microsoft SharePoint platform," said Bob Dickerson, Vice President of DocPoint Solutions. "With more than 85 million SharePoint licenses sold in the U.S., the software has a wide base of users. Yet, surprisingly, most organizations have yet to scratch the surface when it comes to effectively implementing and using the software to help workers collaborate on projects, review needed information, and get more work performed in less time. The organizations that are coming to us for assistance realize the inherent value of SharePoint, and want to maximize the use and effectiveness of the software in their daily operations."

"We are excited to add DocPoint Solutions to the Clearview Authorized Partner Network," said Steve Leichtman, Senior Vice President of Sales & Services for Clearview Software. "One of our successful business approaches is to partner with companies that hold deep industry experience, such as DocPoint Solutions, which enables us to become established within industries that include banking, manufacturing, professional associations, and higher education. These organizations share the goal of improving employee collaboration and saving time and effort."

Clearview has introduced a fresh approach to ECM that uniquely leverages the native ECM capabilities of SharePoint as core components of the Clearview suite architecture. By extending SharePoint with transactional document imaging, report management (COLD), and business process management, Clearview delivers enterprise-class ECM functionality that rivals legacy ECM products. Furthermore, the Office 2007 user experience provided throughout the Clearview client interface provides information workers with a familiar Microsoft experience designed to promote ease-of-use and rapid adoption of ECM on every worker desktop.

###
